

## **GRIZZLY FX - Sustainable Matting Solution for Property Managers**

### **The Product**

- ▶ See literature for complete product details and specifications.
- ▶ Grizzly FX (GREEN) is a recyclable product and has high recycled content.
- ▶ First and only recyclable matting program in Canada with select distribution partners
- ▶ Henderson is working to minimize it's products' impact on landfills.

### **The Benefit to You**

- ▶ Save money on interior cleaning through the use of high-performance matting products.
- ▶ Meet environmental expectations of tenants.
- ▶ Be recognized as a user of quality/LEED/Green products.
- ▶ Improving your LEED rating
- ▶ Reduce building contaminants due to reduced floor stripping, polishing and carpet extraction.
- ▶ Reduced matting cost due to longer performance life than needle punch poly matting

### **The Recycle Process**

When replacing your tired, existing matting with new GREEN matting, Henderson will recycle your old matting using the following guidelines. This service is not available in certain areas where freight costs are prohibitive. Please confirm with Henderson if service is available.

#### **Under 500 sq ft (loose mats or installed)**

- ▶ Deliver to Henderson facility in either Toronto or Vancouver.
- ▶ If mats are on a pallet (see guidelines) or rolled and wrapped in plastic with rolls LESS THAN 6' in length, Henderson will arrange for pickup at a cost of .25/sq ft with a minimum charge of \$35.

#### **Over 500 sq ft – Not installed**

- ▶ Deliver to Henderson facility in either Toronto or Vancouver.
- ▶ If mats are on a pallet (see guidelines) Henderson will arrange for pickup at no charge.

#### **Over 500 sq ft – Installed**

- ▶ When Henderson has quoted to deliver and install new matting, it will arrange with its installer to prepare/palletize old matting for pickup at Henderson cost.
- ▶ This matting will generally be left at the customers' shipping dock for truck to be sent as soon as possible. Depending on the project and location, it may be possible to pick up this matting at installation conclusion but cannot be guaranteed due to the various variables such as night installations, installer vehicle and access.

### **Pallet Requirements for Pickup**

- ▶ Pallet may be any size (yes this is recycled as well)
- ▶ Matting must be cut flat to fit on pallet and shrink wrapped. Matting cannot extend beyond the edges of the pallet.
- ▶ Completed pallet must be less than 3'6" height. (3' of matting)
- ▶ Matting does not need to be clean or dry. May be stored outside.
- ▶ In the case of a pallet measuring 40"x48":
  - 3/8" thick matting will have 96 layers (1200 sq ft)
  - 1/2" thick matting will have 72 layers (936 sq ft)
- ▶ In both cases pallet will weigh (dry) approximately 1000 pounds.
